SEARCH NOTES		
Search Notes	Date	Examiner
Began with a classification search, and found several relevant classes, including 318 for the motor systems, 345/163, 227/46, 242/318. Found good art, and narrowed my search using key terms. I searched especially hard on claims 3 and 4, because the claimed subject matter was not disclosed in any of my art. Found that the limitations were only objected to after talking to Amr Awad and looking in 318 further, as instructed	06/07/07	E. Sheets
Terms: capstan, drum, extend, haptic, mouse, interface, tension, bar, cable, pin, braille, piezoelectric, actuator, tactile, force feedback, button, servometer, groove	06/07/07	E. Sheets
